

Complete Franchise Ecosystem Screening.

Four Strategic Categories to Protect Your Brand and Accelerate Growth

Franchise success isn't just about finding good operators, it's about comprehensive risk management **across your entire network**. From vetting potential partners to monitoring existing operations, CIChecked provides the investigative intelligence that **protects your brand at every level** of your franchise ecosystem.

Four Strategic Categories.

1. Franchisee Candidates

Comprehensive partner vetting including financial capacity, business experience, character assessment, and multi-jurisdictional compliance verification before awarding territories.

3. Franchisee Staff & Employees

Location-level background screening for all franchisee employees, ensuring brand standards and compliance requirements are maintained throughout your network.

2. Franchisee Business Operations

Investigation into existing business ventures, operational practices, financial standing, and potential conflicts of interest across your franchisee's portfolio.

4. Corporate Team Members

Executive investigations for franchisor corporate employees, leadership team members, and key personnel who guide your brand's strategic direction.
